

6. STANDARD FIA TIME CARDS

1. GENERAL

- A time card must be issued for the Qualifying stage (if applicable)
- A separate time card must be issued at least for each section.
- The target time for covering the distance of a road section must appear on the time card.
- Hours and minutes must always be shown as: 00.01 - 24.00, only the minutes which have elapsed will be counted.
- Time cards should be issued and collected at the end of each section. Used time cards then become available for the results teams to check. Ideally a separate new card should be used for end of Leg 45' service (as in example for 'Flexi-Service B').
- An organiser may propose to the FIA the use of an Electronic Time Card in place of a written system. The use of such a system must be approved by the FIA before use.

2. DESIGN

- See the following sample.
- The centre column is for completion by officials and the right-hand column for completion by competitors.
- Previous car No is optional. It is used by several rallies for safety checking. If this box is used it should be placed under the 'provisional start time' box.
- Size: 9.9 cm x 21 cm (to print 3 time cards from an A4 sheet) or 11 cm x 18.5 cm
- Boxes size: 1 cm
- The card should be at least 300gsm card or 270µm polyester paper (for poor weather conditions). Note that polyester paper, although waterproof, cannot be easily folded. An alternative is to produce a time card with a cover – i.e. a card of 22 x 18.5 cm folded, which has a cover to protect the written area.
- When many TC's are involved, reverse side printing or use of a side by side (and folded inwards) design may be used.
- The printing colour is free. For example, an organiser may use a sponsor's colour, a different colour for each section or simply grey and black.
